

Aploris for Windows/Aploris for Mac

Product data sheet

Specification of services

Aploris for Windows and Aploris for Mac are add-ins for Microsoft PowerPoint® for the creation of business presentations, especially the design of data charts

Using Aploris for Windows and Aploris for Mac data charts can be inserted into Microsoft PowerPoint and edited

Supported chart types are Column/bar charts, line charts, waterfall charts, area charts, Marimekko charts, bubble and scatter charts, pie charts, spider net charts, Gantt charts

Charts created with Aploris for Windows or Aploris for Mac can be edited with either Aploris for Windows or Aploris for Mac

Displaying created charts created is possible with any program that can correctly render Microsoft PowerPoint files

Aploris for Windows and Aploris for Mac include additional functions for inserting and aligning Microsoft PowerPoint objects which in part can be applied to charts

The language used for the user interface of Aploris for Windows goes by the installed language version of Microsoft PowerPoint; English and German are supported (English is used for all other language versions of Microsoft PowerPoint); Aploris for Mac uses English
